

Canon DR-5010C

The Canon DR-5010C A3 duplex scanner can process documents at 50ppm with colour, greyscale or black and white output. In addition to the U-turn paper path, a straight paper path allows thicker documents to be scanned. The ultrasonic sensor of the DR-5010C, which detects double paper feeds, makes this scanner the perfect choice for the professional user especially when mixed documents need to be scanned in a batch. The "Custom Colour Dropout" function is particularly useful when processing forms, as it can suppress red, green and blue (or other colours as defined by the user) on the scanned document.

Working Environment

DR-5010C is recommended for desktop use in office environment applications, where flatbed is not demanded. The straight through paper path increases its versatility in typical business applications where thick documents and/or plastic cards need to be scanned and processed.

Top Features

- Efficient A3 departmental scanner
- 3D colour sensor for optimal image quality
- Secure paper feeding with ultrasonic double feed detection
- Selectable straight paper path for thicker documents
- MultiStream image output option
- Dual interface (SCSI and USB 2.0) offers connectivity alternatives

Accessories (not included)

- Barcode module II
- Pre- or Post-Scan Imprinter (50F or 50B)
- Kofax VRS 4 Professional for Workgroup Scanning

Included

- ISIS and TWAIN drivers
- User Manual
- Adobe Acrobat® 7.0 Standard
- CapturePerfect 3.0 imaging software

Scanning mode	Duplex	
Document feed	ADF (100 sheets capacity)	
Document size	Business cards (A7) to A3	
Optical resolution	600dpi	
Speed (A4, Portrait)	Simplex	Duplex
B/W (200dpi)	50ppm	100ipm
Colour (200dpi)	50ppm	100ipm
Interface	Ultra SCSI-3 and USB 2.0	
Dimensions (WxDxH)	398 x 668 x 194 mm (open)	
	398 x 312 x 191 mm (closed)	
Weight	10 kg	
Noise level (operating)	< 71 dB(A)	
Noise level (stand-by)	< 40 dB(A)
